

# BS AA12

## Contact Input and Output Module

With its dry contact inputs and relay outputs, it enables air conditioning devices such as cooling, heating and ventilation to be managed by defining various scenarios and to monitor instant situations.

### MODEL

BS AA12

### 10 A RELAY OUTPUT

12

### DRY CONTACT / FLOOR PORT

12

### ALERT, WARNING & NOTIFICATION

Written and illuminated warning through LCD

Audible alert via management software

Email (with management software)

Audible - Visual warning module (siren)

SMS and Phone Call (through SMS Module)

### TECHNICAL SPECIFICATIONS

Power: 220 VAC, 7,5W

Connectors: RJ-45, Screw / Screwless Terminal Block

LCD: 2 Line X 16 Character

Work Conditions: -30 C°, +80°C ve 0 - 85 %RH Nem

Dimensions, Weight: 105mm x 91mm x 45mm, 320g

### NETWORK & SECURITY

Connection: 10/100 Ethernet

Security: Password Protection, IP address filtering

Protocols: HTTP, TCP/IP, DHCP

Dry Contact Sensor Inputs

: These are for connection of Door Open / Closed, Flood, Smoke, PIR, Earthquake, Shake detectors and any device with contact output.
